VIEW

- Create view (SSN, Full Name of employee, Project Number, Project Name, Hours) that includes information about employees, projects, and hours for those projects at Houston.
- Create view (SSN, Full Name of employee, Number of dependent) that includes information about employees who have the number of dependents greater than 2.
- Create view (Full Name of employee, date of birth, gender) for those employees who have their birthdate in July. Make this view as read-only.

TRIGGER, FUNTION, STORE PROCEDURE, CURSOR

- Employees in the company must be older than 18 years old. Write a trigger to implement this constraint.
- Write a function that returns the total number of projects when given an employee's ID.
Input: employee ID
Output: total number of projects
- Create a store procedure that prints SSN, Full name of employee, Department name, and annual salary.
